MaxxiLine® Nitrogen Kit is the ideal kit for HVAC and Refrigeration installers and service technicians. This Kit provides all tools needed to pressure check the HVAC and Refrigeration lines, leak testing after brazing, flush drainage lines, blow clean components, and purge AC line sets.

This procedure eliminates contaminants and the moisture/water vapor to create a dry environment

MaxxiLine® Nitrogen Kit allows to check the integrity of the lines and detect any leak, before the filling the same with the refrigerant gas.
